High School Credit for Proficiency

Subject to the limitations in this policy and State law, the Superintendent is authorized to establish and approve a program for granting credit for proficiency with the goal of allowing a student who would not benefit from a course because the student is proficient in the subject area to receive credit without having to take the course. A student who demonstrates competency under this program will receive course credit for the applicable course and be excused from any requirement to take the course as a graduation prerequisite. No letter grade will be given for purposes of the student's cumulative grade point average. The Superintendent or designee shall notify students of the availability of and requirements for receiving proficiency credit.

Proficiency credit will be offered in the following subject areas:

Consumer education - In order to receive credit, a student must pass the Annual Consumer Education Proficiency Test developed by the State Board of Education. A student in grades 9 through 12 is eligible to take the proficiency examination.

Foreign language - A student is eligible to receive one year of foreign language credit if the student has graduated from an accredited elementary school and can demonstrate proficiency, according to this District's academic criteria, in a language other than English. A student who demonstrates proficiency in American Sign Language is deemed proficient in a foreign language and will receive one year of foreign language credit. A student who studied a foreign language in an approved ethnic school program is eligible to receive appropriate credit according to the level of proficiency reached; the student may be required to take a proficiency examination.

Other proficiency testing - The program for granting credit for proficiency may allow, as the Superintendent deems appropriate, course credit to be awarded on the basis of a local examination to a student who has achieved the necessary proficiency through independent study or work taken in or through another institution. Proficiency testing may also be used to determine eligible credit for other subjects whenever students enter from non-graded schools, non-recognized or non-accredited schools, or were in a home-schooling program.

Course Credit for High School Diploma

The Superintendent or designee may investigate, coordinate, and implement a program for 7th or 8th grade students to enroll in a course required for a high school diploma provided that: (1) the course is offered by the high school that the elementary student would attend, (2) the student participates in the course at the location of the high school, and (3) the elementary student's enrollment in the course would not prevent a high school student from being able to enroll.

A student in the District, or transferring into the District, who successfully completes a high school course, shall receive academic credit from the School Board. That academic credit shall satisfy the requirements of Section 27-22 of The School Code for purposes of receiving a high school diploma, unless evidence about the course's rigor and content show that the course did not address the relevant Illinois learning standard at the level appropriate for the high school grade during which the course is usually taken. Such a grade shall also be included in the student's grade point average in accordance with Board policy.

Students transferring into the District with high school course credit for courses that the student successfully completed pursuant to Section 27-22.10(a) of The School Code will be awarded credit according to State law.
